Justin Amber Wehrle The training here is unparalleled. I have grown on the inside, while loosing a few pounds on the outside(thanks Gburn 😊). SBH has giving my family a residual income that is covering braces for my daughter and music lessons for my son. It's only going to get better because the growth is happening quickly! This is REAL. Generational Financial Freedom is ours.

Kory White This commission plan is so simple that you can actually explain it! From our retail program, where we put profits in our pockets, to the 6 Tier plan, where we earn percentages of what we bring to the company! Thankful to be able to cover some bills every month!!

Homer Krehbiel The most powerful commission Plan I have ever seen. 73 years young and making money while I sleep, can't beat that! Got paid every single pay period from the very first day I joined. How many of you can say that? The best part is this; raising money for my favorite cause. HOW TO SUPPORT YOUR FAVORITE CAUSE EVERY DAY

If you could create FUNDS every day for your favorite charity, mission, or organization would you be interested?

Better yet if you could do it by not increasing your BUDGET would that interest you?

Even better yet WHAT if you got paid for doing this would that interest you?

WHAT DID I JUST SAY?

CREATE FUNDS FOR MY FAVORITE CAUSE.

I DONT HAVE TO SPEND MORE MONEY TO DO IT.

I GET PAID TOO!

YES, IT IS TRUE! WOULD YOU LIKE TO SEE HOW?

Sarah and I have friends who are every day creating FUNDS for Jesus For India (James Jacob Ministries), Bishop John Murunga and Bishop James Murunga in Kenya. These men have never bought any SBH Products but getting paid, BLESSES OUR HEART. WE HAVE NEVER SEEN THIS FROM ANY OTHER HOME BASE BUSINESS.

Taylor Barrett I can't begin to explain the personal growth I have experienced since starting in SBH! Not only personally, but in all of my relationships and friendships in general. It's great to be able to understand the simplest commission plan I have ever seen. I have true time freedom and I know soon, I will have complete financial freedom as well. I am beyond thankful to be able to finance the dreams and goals that I wouldn't have been able to accomplish this early without SBH. The products too 🍷 ... best in the industry ... best in the world!

Patricia Manzano Our future has never looked brighter than it does today with Success By Health! We made a decision 6 months ago to go for it. Why? Because of the CEO and Founder, Mr. Jay Noland. He's a Master Trainer and he trains others to create residual income! That means we can do the work once and be compensated over & over again. Our income has consistently grown since the beginning and now - it pays for all of our day to day living expenses! If you're open to break away from the JOB mentality, we'd love to share with you a better way.

Francois Hewing This company and the leadership is beyond anything that I could have ever imagined (and believe me I have imagined having a solid company that would just fulfill its promise). It is giving me the opportunity to be apart of a movement that has placed my focus on positive growth for my, family, friends, local and global communities. SBH has helped me to start thinking differently about what I thought I knew about health and wealth. I can admit I have been fooled about how all this works and now with the right mentorship I am starting to think RIGHT and grow rich. This effect has started to transfer to others and change their purpose and goals. It is amazing to hear someone say SBH saved my life (so powerful) thank you for introducing it to me. I get choked up thinking about the millions of lives that will be changed. This company will be my legacy company passed down through generations. I have made income from the very beginning (did y'all catch that) enough to make a difference and pay bills. I will be making more in a month than a person makes in a year or two or three!!! The potential is limitless and so is my effort. I am guided by the #1 Master Trainer, the best leadership team assembled ever, and the best Plan (Plan B: I encourage you to seek it out if you don't know it). This is so simple we are an Impact company Successs By Health, we have a cause and purpose, which creates a cause and effect in a positive way on people's lives. Shout out to our 100% funded by SUCCESS BY HEALTH orphanage in Kenya!!! We do it for the kids. Thank you for this opportunity Mr. Jay Noland LOVE 🍌 SBH.

Tyler Sherfield I LOVE SBH! I now realize that I have complete control over my life and finances. The opportunity that we have to supplement or replace our income with retail profit alone is incredible! We literally sell a product that the majority of the world's population consumes daily... think about that. I have a tremendous amount of respect for Mr. Noland and SBH, and I can't wait to lead my family to the point of complete time and financial freedom over the next couple of years through this opportunity with SBH! I can already see it unfolding. It's amazing what will happen to your attitude even when your SBH business starts to pay for your electric and cell phone bill each month... Imagine as it grows...

Carleigh Sherfield I've grown so much as a person since starting SBH! I can honestly admit I was one of least confident people before beginning this journey and now I truly do believe in myself and my abilities.

I love knowing I am helping orphans while working on my business. Those kids have my heart and Success By Helping is making a difference in hundreds of children's lives.

It doesn't hurt that I have been able to reduce my time at work and my husband has been fully out of a "conventional" job for over a year now!

Love SBH and the sense of belonging it has given me!

Suzy Q Monroe Success By Health gave me the opportunity to walk away from a 17 year career in law enforcement, 3 years from a monthly pension, without having to change my families lifestyle. I've been able to raise more money to fight back against cancer and help with numerous other fundraisers. SBH has afforded me the opportunity to travel with my daughter, spend more time with my husband and family to enjoy the things we haven't had the time to do, camping, hiking, exploring, traveling, to name a few. Since I have been using the products, I've noticed a decrease in the pain and inflammation in my body, an increase in energy and my hair hasn't stopped growing. The personal growth/development with Mr. Noland, combined with the confidence and belief helped me see that I didn't need any experience in running a business, sales or prior experience to be successful in SBH. It's amazing to want to jump out of bed in the morning, versus hitting the snooze button. Thank you Jay Noland for the opportunity, training and mentoring. #Grateful #GanoGlow #SBH 🍌🔥🍌

Amy Holland McDonald I am blown away by my transformation. It started by seeing a difference in my extrenal appearance. I started in a size 24 (Not proud, just the truth) and I bought a size 14 the other day.....excuse me while I cry. (Happy tears) You see I had given up on life. My husband and I had gotten in over our heads in a 1.6 million dollar farm. Right after we bought it the markets went down and corn that was making nearly \$9 bushel was making less than \$4, we lost everything, friends and family abandoned us. And my health suffered horribly. Our son had been in a coma from a very dangerous drug called K2 or spice. Every day I would be told " He will die today" he lived, but I had PTSD from the trama of what happened. All of this in a couple of years. A full year of legal fights. And I had it all inside. Without any moral support. I ate all of my feelings. Gaining so much weight.....hitting 300, I was in a recliner many hours each day.

Now my heart is full of hope and happiness. Through my dear friend **Amber Wehrle**, who reached into my heart and helped me trust someone again, not only her but Mr **Jay Noland**. Direct sales was NOT something I was going to trust again EVER! but after months of watching a man and a company keep all of their promises, understanding the most lucrative compensation plan I have ever seen, and having the peraonal growth both physically and financially, I know this is the real deal.

I am sorry if I offend or shock with my story, but I feel that its possible that someone is out there, thinking.....""this is for skinny perfect people"" This is for everyone. This has saved my life. I will forever be so grateful to SBH and Mr. Noland!!!! My whole team, thank you SBH family..

My dream as a child was always to be a missionary. I never got to do that, but feel now by a part of our sales going to an orphanage, that yet another dream has been fulfilled by SBH. ❤️💕

Susan Gardieff SBH has been a HUGE blessing to myself, my family and growing team! We are unique for sure in this industry of direct sales. I have had the opportunity to experience this industry for going on 7 years and never have I been apart of something so special. We have the best trainer who leads from experience. He is raw and coaches us all to be successful starting with our mindset. The personal development alone over the last year is leaps and bounds from prior experiences. Our family dynamics and growing team have all improved and we are just getting started. There is NO guess work with Success By Health. Training is consistent and all straight from our CEO Mr. [Jay Noland](#), who is documented and we trust 100%. We are rank advancing, having team mates do the same and testimonies galore because these products and this commission plan works! Following the training we have grown a larger team then ever before and have been able to pay mortgage/vehicle bills with our commissions. Again, the most exciting part is we are still in pre-launch!! This opportunity is HUGE for those who chose to run with us and if you want to be in a positive, REAL environment, which will allow you to be just who you were born to be....SBH is the place!

Leandro Cepero The Success by Health Business opportunity is a fantastic way to take control of your life. I used to work 60-80 hours a week. I got to see my family only in pictures and videos. Now I get to see my kids everyday. I have enough time to excersise weekly. The training is the best there is in all parts of life. My whole family has benefitted from this business. My wife and I have used the training and everything from our children's grades to our relationship has improved. I still have a way to go but my life could not be better. Every day is better then the last. Thank you Mr [Jay Noland](#) for pouring into us in such a raw honest way. There is truly no better opportunity out there. Making money, making our family stronger while making a difference in peoples lives for the better. Thank you.

Tristan Towns Words can not express how grateful I am for Success By Health and Mr. Noland! The products are absolutely amazing, and it doesn't hurt that I've also seen financial success simply from sharing this company with others. It's nice to pay bills with the money from retailing products. I've also been able to help with dog rescue organizations from our coffee fundraisers which has been a dream of mine! The personal growth I've had has been life changing as well! I know my husband and I will only continue to grow in our success with this company, and I'm so thankful!!

Danielle Wentzel Almost a year ago my life consisted of a redundancy that most people can relate to. Everyday my inner voice screamed desperately for change. I knew there had to be more to life than what I was living, I felt it in my bones, but never knew what was going to save me and my family from simply just existing. Living the life of repetitiveness, negativity, emptiness, and no real value on this beautiful life other than work, distance, and a desire for more. I was introduced to SBH by someone that I wasn't close to, nearly a stranger. I was reluctant at first because I didn't feel direct sales was "my thing." I lacked the confidence needed for the industry. I tried the coffee, liked it, and completely switched. I then went to a CTM business overview for the first time and my life literally flashed before my eyes. I caught the vision. Everything that I was desperately searching for was finally right in front of me. Did I have a clue how much SBH and Mr. Noland would change my life, no. But I felt it in my soul and I was right. The products speak for themselves, you just have to dedicate yourself to them so you can feel for yourself how wonderful they are. Mr. Noland's training and mentorship is what I will cherish forever. Because of him, I have found my place, I have found my courage, strength, and confidence finally Living in the Real. I have found the vehicle to ultimately touch and change the lives of others forever to those who seek change. I have found the way to redirect the future for my children so they will never have to experience the life we are currently conquering. They will understand the value of success. They will understand the importance of maximizing the six pillars of mental, physical, social, financial, emotional, and spiritual health.

Bill Wentzel How did SBH change my life: I have a doctorate in Physical Therapy, so many hours of schooling that taught me just one way of thought. No true way to be free! Having to put in my 30-35yrs before possibly being able to retire, always answering to a boss that is able to dictate when you can be off, and how many days you can be sick. We live in the land of the free, and even though I have a great job, I'm not free!!!! Even though I currently still work SBH has given me the freedom of thought to know I will be free sooner than later because a man by name Jay Noland has laid out a path/plan that has me absolutely excited! I was over weight lost 30lbs on Gburn, not a coffee drinker, now drinking at least 2cups of latte in the morning. Didn't believe in affiliate marketing, now growing a team and giving my own CTM's. I WILL BE FREE with SBH. Thank you Jay Noland!!

Phyllis Long How can you explain a mission. Only true belief passion, loyalty, integrity, and respect with honor for each other makes SBH. The strongest group of leaders this industry will ever see. When you lead with helping others first, you realize it is bigger than you and your goals. The results will reach farther than you will ever know. I am very proud to be a part of a company that cares for the least to be a victor, and to learn how to become the winner they feel they can be then instructed and taught how to go further to reach the ones only they can help. It is more than great tasting coffee, tea, and nutraceuticals. These products give you mental focus, weight loss and sustained energy. You will also have the opportunity to experience success. There are many affiliates receiving paychecks twice a month. Simply by sharing with others to do something they are already doing. Drinking coffee.

Jacob Bunyard Success, By Health. Don't let your mind fool you into over thinking this concept. Three simple words that's by themselves hold no real value, but together posses a power to change not only the health of your body and mind, but make you successful by being healthy and mindful in your personal life as well as your financial life. In the few months I have been a part of this company I have gained much wisdom. About health, wealth and living a prosperous life with no limitations. Through this experience I am growing and not just by myself. I have been given the opportunity to also help the people around me grow, the love of my life as well as everyone I come into contact with everyday. Thank you Mr. Noland for the wisdom you impart to us and the constant flow of energy that keeps us all moving forward. Together anything is possible!

Teresa Jefferson Craig and I have spent over 30 years of our lives working to build the dreams of others. When we were introduced to SBH in May we both knew we had found what we had been looking for, the hope of achieving our dreams of living healthier, financially free lives. We then had the opportunity to attend Boot Camp in Lexington, KY and experienced first hand the amazing master trainer, our CEO and Founder, Jay Noland. We left there inspired and have steadily been building our team and sharing the products with the help of our mentors James G. Knight, Erin Ross Knight, Patricia Manzano, Alex Manzano, Ann Giles and Tommy Sacca. We are building friendships for a lifetime along with residual income. We have watched lives being changed physically and financially and are so thankful for the vision and opportunity of SBH.

Bill Meyers SBH is by far, without question, the best direct sales company I have ever dealt with. Our leadership from Mr. Jay Noland is beyond measure. Mr Noland does exactly what he says he will do. His trainings are unlike any other in the industry that I've experienced. From basic concepts on sales and recruiting, to team building and advanced options, and into deep personal development and growth; I would not be who I am today without SBH and the trainings provided by Mr. Noland.

I have personally amassed greater success with SBH in less than a year than I had in my last company of over 4 years. The financial stress in the home is relieved and I continue to earn commissions on every pay period since becoming and affiliate. As I grow, my business grows. I could not imagine where I would have ended up without this opportunity to help myself, my family, and others.

The products are all amazing and our gourmet coffee is the only coffee I've ever been able to drink without adding anything to it. Simply the best!

This company is where my stake is firmly planted! I believe whole heartedly in our products, our company, our leadership, our mission, and our goals.

We are a family! We are SBH!

Robert Mehler Having come from an extremely conservative upbringing and corporate business background , I stumbled upon Direct Sales over 20 years ago. I also met Mr Jay Noland in what was the first company either of us was ever involved with in the industry.

I was at the top level of the company when Mr Noland first got started. He achieved the top level and became a corporate trainer in record time.

We both left that company , I went back to traditional business as a business owner in various companies. Mr Noland continued to hone his skills and perfect his craft in Direct Sales.

Almost 2 years ago , we reconnected and it became apparent to me that not only had he achieved massive success, but that he had led countless others to better lives through what he had learned and now could so adeptly teach.

SBH is the best of both worlds. A "start-up , ground floor " opportunity with 23 years of successful experience and more than adequate financial funding. The training is second to none. Mr Noland teaches exactly how to have success in our system - how to run the correct play to maximize your results.

It's a no-brainer to me to be an affiliate in SBH. World class products and world class training in the best team atmosphere one can imagine !!!

Matt Wells SBH is the realist company out there! From the top to the bottom! Pure honesty and zero tolerance for negativity! Joey Farley SBH is the best business I have ever seen. This is my 10 year old daughter Josie. She and I did a fundraiser for her best friends dad, who has brain cancer. We sold \$6,400 of coffee in 28 hrs. The products are so amazing! I, myself have lost 17 lbs so far just by taking G-Burn. I have suffered from kidney stones all my adult life. Since taking these products, I have not had any issues with kidney stones. The people and leadership in this business is second to none. So glad to be apart of SBH!!

I absolutely love this company, leadership, and products. My husband and I have lost 65 lbs - how awesome is that? SBH has allowed us to supplement our income greatly. It's so exciting to be a part of this journey. Success By Health is our path to lifelong prosperity.

Britney Pineau Before joining Success By Health I was with another direct sales company and was actually planning on leaving the industry. The second I heard Mr. Jay Noland was starting up a new company I didn't hesitate to join and became an affiliate. One of the reasons is because I had been to several of his trainings and have never been to anything like them. They are powerful, direct, simple, the excitement and energy are through the roof. You can tell how raw and genuine he is through his words and actions. He believes in people and helping them achieve their goals no matter what they may be. Another reason is the commission plan. It is simple, has several different ways to make money, easy to explain and best of all has no cap on how much you can make.

Being a part of this company has changed my life in so many ways. The person I have become is more than I could have asked for. My health has improved drastically with the amazing products we have available. Over all I am a much happier and positive person. Being able to stay home and provide for my family means everything to me!!

Rhonda Nash Wright No words seem to do justice to fully express how much SBH has changed our lives! Last December, we were looking into additional streams of revenue so we would no longer be dependent on the state/school system for our retirement. And we were introduced by a great friend to the most generous commission plan I have EVER seen and the outstanding products were just icing on the cake! I was ecstatic when this opportunity helped replace my income within 3 months and after 6 months, my husband also walked away from his public teaching position! We are pursuing SBH full-time, which also gives us the privilege to homeschool our 3 children and travel whenever we please! SBH is my family's path to long term financial freedom for my children and many generations to come! And those reasons are not even the top of the list of why I am so passionate about SBH! The training, personal development and the energy of SBH is so genuine, deep and transparent, it's like nothing I've ever experienced before! The heart of what SBH stands for, the authenticity of the people, the impact that Mr Jay Noland and this group are initiating is going to change the world! It has already changed my world and expanded the course of my family's future! And I am humbled and forever grateful that I get to be a part of something bigger than I could have ever dreamed in this lifetime! I have finally found the real me and my purpose!

Aidan Moore Since I began with Success by Health I have turned my life around a full 360. As a young man who was always taught the value of hard work but always motivated through negative reinforcement, the inspiration and fire I receive from Jay Noeland, Alyse Marinakis, Jacob Bunyard and the entire SBH family have reignited my passion for life. I have not physically felt this fantastic since I was a child and I have only been taking nutraceuticals for 2 months. As well, for someone who disliked coffee his whole life, for me to discover this coffee that I not only drink, but enjoy, is a life changing breakthrough. And if that wasn't enough, it has given me the opportunity to replace my income so that I can pursue all the things I want to do and have always wanted to do. Nothing makes me happier than the pursuit of knowledge and helping change lives, and I accomplish both through Success By Health with the most authentic CEO, team, and product available in the world! It's time for greatness and I am a part of it, what's stopping you?

Sherry Harrod SBH is like nothing I've ever seen or experienced. Mr. Noland is raw and real and brings things out in you that you had no idea even existed! I am so grateful that I found this opportunity. I am becoming the real me and I am excited about my future for the first time in a very long time. The training provided by Mr. Noland is top notch and I don't want to miss a single training! The products are phenomenal and the commission plan is extremely generous yet easy to understand.

Alyse Marinakis To say that Success By Health has changed my life would be untrue. Success By Health has given my life back to me! The past (too many) years I have gradually lost faith in myself, lost the passion and drive burning inside of me. It still wanted to burn bright but no matter what I did, the flame kept getting smaller and smaller. I was unhappy, I was unhealthy and my relationship was breaking. I knew things needed to change but it all seemed so daunting. That's when SBH kindly found the subtle way to sneak into my life and make a difference. That's when my light began to burn brighter. First I began using the nutraceuticals to help improve my physical health, without any notion of the vast amount of other ways this company could grow my true self, my financial health, help me heal emotionally and expand my social network. By simply taking the nutraceuticals, I quickly saw great leaps in my quality of life. This naturally intrigued me, and I had to know more! As I dove into all the potential there is to be had through SBH, it couldn't have been more clear that this company is one of a kind. For multiple years I had been working 2 jobs to be able to pay bills and save for the future, both equally contributing to my monthly revenue. After 2 months with Success By Health I could happily walk away from one of those jobs and focus on my true passions: helping others find themselves and empower people with the knowledge they need to heal and grow personally. I am deeply grateful to the powerfully influential CEO, Mr. Jay Noland for all that he has done for and given to each and every person in his company. He exudes so much love, wisdom and sincerity; it is truly astounding. I feel I can but barely scrape the surface of the deep impact these products, this company, all the people in it and most of all the person who started all this, Mr. Noland, have had on my life. I am overjoyed at the thought of what my future has in store for me! The dreams that once seemed so far away are very quickly nearing the now. I mentioned to a friend the other day who asked me how I was doing, I replied saying that I am great! I feel as though I have shifted another plane; that I feel like a different person and yet more like myself at the same time. That plane, that platform is Success By Health. This company can elevate anyone and everyone to where they wish to be and even further than you thought possible. All one must do is believe in themselves and never give up just because things got a bit tough!

Steve Lucas Never before have I ever felt more at home in a company. From our CEO Mr. Jay Noland to all of the people(family), we are all on the same mission to save others from financial death. Not only have the products been amazing but what's even better is having a residual income that keeps coming in. I believe we have the best opportunity for people to become who they were truly meant to be.

Milly Rich I have done a lot of personal development work, raising awareness, discovering minds nature....., and in most areas of my life I've been pretty successful, but I had a money paradigm that kept me stuck up until now. For me, our wonderful big-hearted founder and CEO, Mr. Jay Noland is THE money paradigm buster! Being an SBH affiliate helps me to GROW every day in every way, and going for TIME & MONEY FREEDOM while helping so many people to achieve a full spectrum abundance, is a dream coming true! I am excited to watch where the SBH-Autobahn is gonna take me and everybody who DECIDES to go for it! I've got a feeling it's BEYOND my wildest dreams! I am so THANKFUL!!!

Marianne Maes I am deeply grateful for the opportunity to join a company with generous, powerful, leadership and filled with heart-felt, dedicated, hard-working people. It started with being introduced to the coffee...I had been drinking Ganoderma Lucidum coffee for years, and now I found not only a better quality product but now I could also earn money drinking and sharing it! It seemed a simple shift. But soon I recognized the real gift was the Corporate Consciousness led by Mr. Jay Noland. Yes, the products definitely change peoples lives in ways of health, finances, vocation and freedom, but it's the company that makes this deeply true. The training and the products are here to align anyone who applies themselves with an opportunity to grow, upgrade their health and proper in unimaginable ways. I look forward not only to my success but the success of everyone who joins in and partakes of these amazing gifts. There are lots of opportunities out there. This company has a HEART in it that I never knew was out there....to me, that makes it the best opportunity! 🍀🍀🍀

Caroline Bernard Weter I had been praying hard for God to look favorably on a change I desperately needed in my life. Health wise, money wise..whether it be a second job or a roommate. I knew things had to change. I was scared about my health, I felt bad, really bad ~kept gaining weight no matter what I did. Finally I just turned it all over to God and truly trusted Him for an answer. Then Ronnie Mchaffie called me... then he had to chase me down cause I thought this would be like everything else. (I will never live that down) BOY WAS I WRONG ! I was drinking 3+ Quarts of coffee a day, now I am satisfied with just 1 maybe 2 cups, I feel great! Started taking G burn and I have lost 11 pounds in 5 weeks. Bloating is gone, I have energy. I am feeling 'alive' again ! G Shield helped me fight off a sinus infection without a antibiotic prescription!!!!But more than how great I am feeling is how much it has done for my family in only a couple weeks that they have been on just a couple of the nutraceuticals we offer. Seeing Papa walk without his cane and be able to walk around for hours when he could only stand for about 5 minutes at a time, walking with a least a cane because the neuropathy was so bad in his feet. I am beyond grateful for Mr Jay Noland for the opportunity he is giving to us, for the products he is providing for us that can change the lives of so many ! This is soooo much more than healthy coffee, and I am so excited to be so passionate about something in my life again. This is so basic it is complex only because of the incredible amount of change it can bring to so many. I love Mr Jay Noland's passion for the kids, his passion for change, his passion in the training he provides us, his passion for us to be successful in our lives. He has instilled enough passion in me that I once again believe in myself. ❤️ Thank you , I am honored to be a small part of this great company called Success By Health cause that is exactly what it is.

Mathilda Augustsson To be a part of success by health has changed a lot for me. The first time when I heard about SBH I was sick and couldn't work at a ordinary job since I was depressed. SBH is the reason why I'm not sick anymore, I'm the best version of myself and all because of the training and the leadership that has learn me a lot of how we work as humans and how you can deal with it. To be a part of SBH I can build my own business and I get payed for the work that I put in and the best is that there is no limit how much I can earn. I grow everyday and that's because of Mr Jay Noland and everyone that is a part of SBH. This is the only way for me because I know that nothing else then this company can give me exactly what I want. I love being a part of this company ❤️

Tevis Sherfield I've never seen an opportunity (and trust me, I've looked) that better allows people to control exactly what THEY WANT out of their finances than SBH... Everybody has his or her own goals and desires, and SBH has been tailored perfectly by Mr. Jay Noland to be a universal vehicle that can get every individual to the place they wanna be financially...

Some people just want to make enough money on the side to cover one or two bills. This beautifully removes some pressure from their lives, and in my observations, improves their relationships with their families... With SBH, they are able to do this!

Some people have a goal of replacing their income so that, instead of leaving their families everyday to provide for them financially, they can be at home with them and provide financially, spiritually, emotionally, etc... With SBH, they can do that. Many already have!!

Then there are people that have a goal of financial and time freedom. The type of freedom where you can do whatever you want, whenever you want, with whomever you want. With a good heart, this type of freedom allows you to make a tremendous impact on the lives of others. Mr. Noland has trained multiple people to earn over a million dollars per month 🤖... So with SBH, they can do that as well!!!

I think it's very clear the the opportunity we have with SBH can benefit everyone...

Just pick what's best for you, and SBH has a plan that you can follow to make it happen.

Thank you SBH for all you have given me!

Cale G Newman SBH has saved my wife's life. When I say that, people don't get it and it sounds extreme to them. But that's exactly what it has done. The products have helped her so much, including myself as well. The constant pain she was in and the life she was missing out on was beginning to be something we couldn't bear as a family. I can now enjoy my wife who I was blessed with. How do you ignore a company whose products help others get better and help them actually live the life we are meant to live? There is no other option than to be loyal. No more doctor appointments taking our time away. No more man-made medication is needed. No more uninvited doctor bills are showing up in the mailbox. The proof is in the products, baby! Don't get no simpler than that. I'm an avid lifter who loves to throw some weights around. How do you lose weight and get stronger? Impossible? I think not! I am living, walking proof its possible and these products is what helped me do so. Then to put a nice little cherry on top, we get to make money while helping others get healthy and those who need help financially. All while making the world a better place, one person at a time. Out of appreciation, love and respect, I thank Mr. Noland for providing a company that has given my family a better life and fueling the dreams that usually become extinct due to the pressures of life that we think is normal.

Ann Giles As someone involved with health and wellness for over 25 years, I was astonished by the 🌟brilliance 🌟 of getting the amazing Ganoderma, minerals and phytonutrients into our bodies utilizing beverages that we drink daily.

Once we saw the line of nutraceuticals it was over the top. 🌈 Everyone needs what these products offer to allow their bodies to balance and heal itself.

So, knowing that everyone needs what SBH has, the sky is the limit. The business opportunity of Success by Health is unlike anything we have ever seen. Mr. Noland is not only a brilliant businessman but truly the most motivating powerhouse individual I have ever met. He stretches me everyday and I love it!! ❤️ Thank you SBH! 🙏

Nicole Nestle Bringing it back to the basics is NO understatement! My cousin asked me about 5 years ago what one of my top goals were... I couldn't answer the question.

Being a product of the product, simply watching Jay Noland's FB Lives and listening to the heat calls I have built a foundation for the rest of my life.

Life starts with your body and your mind. SBH offers products that have helped me feel the cleanest and purest kind of health I've ever felt! The training and live events have helped me clear all the bull out of my mind and continues to bring more and more awareness, alertness, assertiveness and attention to the things that matter. I love SBH and the whole team within!! The Fun is HERE, the numbers add up, the Love is true and the determination and drive is taking us ALL THE WAY UP 🙌🙌💙💚💛❤️

Ronnie Mchaffie I signed up to sell coffee because a friend talked me into it and never thought much about it. That's until I went to Kansas to one of the meeting. To say I came back fired up and ready to sell was an understatement. I started taking the g-burn and I have lost 11 lbs. But then I got my wife to try the g-burn and the g-clear. She'd been on it for a week or so when she told me she hadn't felt this good in years. For years she has struggled with depression. She has fibromyalgia so pain and depression had become an everyday struggle for her. She told me she has been sleeping better, her mind is clear and her pain level is down and her depression is 88% better and she felt like she was 20 again. I can not express the joy this has given me. This company that I am so proud to be a part of has given me my wife back. To see the smile on her face is worth every thing. So thank you Jay Noland for starting this company. And Joey Farley for signing me up.

Rebecca Lynn Chick I've been reflecting the past several days on how to answer this testimony because my life has truly been changed forever because of SBH so I'll do my best to gather my thoughts.....

About a year and a half ago I met Mr Jay Noland and loved his RAW training from the second I met him! You see...I've worked in Healthcare for about 20+ years (10 years as a dietitian and 10 years as a Registered Nurse) in a job that I initially LOVED, had passion for, gave it my all....but then I hit a milestone (i was turning 40 years old) working where I really didnt feel like I was making a difference anymore. I had lost myself, I had lost my passion. The years in a often thankless profession was taking a toll on me....while nearing close to my 4th decade of life, I remember asking myself 'IS THIS IT? For real...this SUCKS.....

You see... I started looking at healthcare differently knowing there is a better way to treat dis-ease and I was looking at my patients and my coworkers thinking...I dont want their lives - my seasoned co-workers were overworked and underpaid and negative, complaining everyday - and my patients were being admitted with dis-ease that could have been prevented (drugs, alcohol, obesity, comorbidities, etc.) aka... 80% of disease can be prevented - Was I really making a difference in these peoples lives???

I also took notice as my patients continued to complain about their finances - the broke and retired phenominum....

You see, I reside in Florida where many people go to retire and all i kept hearing about was budget, budget, budget.....retired....budget, budget, budget.....i kept thinking....when does this budget end?????

If I am on a budget now and into retirement, then what do I have to look forward to??? Will I ever be free from a BUDGET????

I was getting negativity from all angles of my life and i thought.....there must be a better way!!!!

I was put on this earth for more....I knew I needed a change for something MORE, for something bigger and better.....I needed to work towards something I was passionate about again or else i was going to have a real breakdown.....but what.....

In walked Jay Noland and SBH!!! I learned to understand direct sales and its purpose....I began to study the industry just as if I was going

back to school.....

We have:

1) NEUTRACEUTICALS = YES...THE BEST IN THE INDUSTRY HANDS DOWN - we need this in the state is DIS-EASE the world is in.....

2) RESIDUAL INCOME = NO MORE BROKE, RETIRED MENTALITY. NO MORE BUDGET = RETIRED MENTALITY.....

3) PERSONELL DEVELOPMENT - I knew I was put on this EARTH for MORE!!!!

I knew I was better then just being an employee and potentially helping people physically...i mean.....I LOVE PEOPLE!!! Always have and always will!!!! I always went above and beyond for my patients and their families.....

Little did I know the REAL pain most households are experiencing ing.....FINANCIAL PAIN and FINANCIAL BURDON!!!!

I feel soo fortunate!!!! I can now become the BEST version of my self while helping people in all walks of life!!!! I have PASSION again in my life!!!

I can see the world and I can truly achieve a life if happiness and bliss following a mentor that is the best in the industry. I know the value of having a strong mentor and goals!!!!

I am connected to the best people I have ever had in my life with SBH and I feel soo fortunate!!!!

This 4th decade of my life is going to be the best EVER and I cannot wait to see who I become...

Thank you Jay Noland and my SBH family for believing in me!!! As I continue to get stronger I know now what my true DESIRE is.... just wait.....its only a matter of time til I get there...
